## County Website Program **\$350/year**

Professional WordPress websites for Democratic county parties — up and running in 15-30 days. Includes:

- Domain registration and 3 dedicated email accounts (e.g. chair@yourcountydems.org)
- Custom design using the Divi theme on professional WordPress hosting
- Professional event calendar, logo optimization, and voter guide integration
- Zoom training for your team and ongoing support — we're always there if you get stuck

“ For years we sought a functional website but found the process complicated — we'd get to a certain level and fail to launch. The Activate Iowa program made it simple and consistent with party guidelines, and it includes everything a county party needs to succeed. The cost was well within budget and even included email addresses with our domain. Now we can focus on winning elections!
